

# Moving to a home in the community

## **What is happening?**

In the next three years the home you live in now is going to close, and you will move to a new home with fewer people.

---

## **Why is this happening?**

A judge decided the government must do a better job of supporting people to live in the community and make better choices for themselves.

---

## **What does this mean for me?**

You will have a say in where you live and who you want to live with.

You will have lots of time and help to make your own plan.

You will be able to visit and explore different places to live, like a house or apartment.

---

## **Who will support me?**

You will continue to receive the support you need.

You will be able to choose who supports you.

---

## **Will I get to see my friends when I move?**

Yes! You will be able to see your friends after you move, and you will be able to make new friends in your new home.

---

## **When do I have to move?**

You do not have to move right away. This change will happen over the next three years. You will have lots of time to get ready.

---

## **I don't want to move. Do I have to?**

Change can be scary and exciting. The home you live in now will be closing because it is the law. But you will get to decide where you move, who you live with, and how you spend your time.

---

If you ever have questions you can talk to your friends and family, the people who support you at your ARC/RRC, and your Care Coordinator.
